Our goal is to help you realize yours

Character:

One of the many ways we stand out in this industry is our promise not to waste your time—that starts with straightforward communication and ends with an unmatched ability to make unique loans.

Ours is a progressive approach rooted in tradition. We represent the very same tenets that this storied company was founded on more than forty years ago. Barry Slatt Mortgage brings the full weight and expertise of our entire team to bear on every one of our projects. We are about building relationships with borrowers and lenders. Our goal is to represent all parties with the highest degree of integrity and professionalism in all aspects of commercial mortgage banking.

Over 40 Years of Experience

History:

Barry Slatt Mortgage is a long-standing and respected institution with more than four decades of experience in commercial mortgage banking. Our founder was one of the seminal figures who helped shape the face of this industry through entrepreneurship and lasting relationships. We strive to challenge the way commercial mortgage banking is done.

Today the company—and the market—look much different. In an industry where each deal requires a unique solution and a skilled advisor, experience speaks for itself. Complex times require complex solutions, and we have the expertise to excel in today's ever-changing landscape. We are rooted in the past, but the future of Barry Slatt Mortgage is all about innovation.

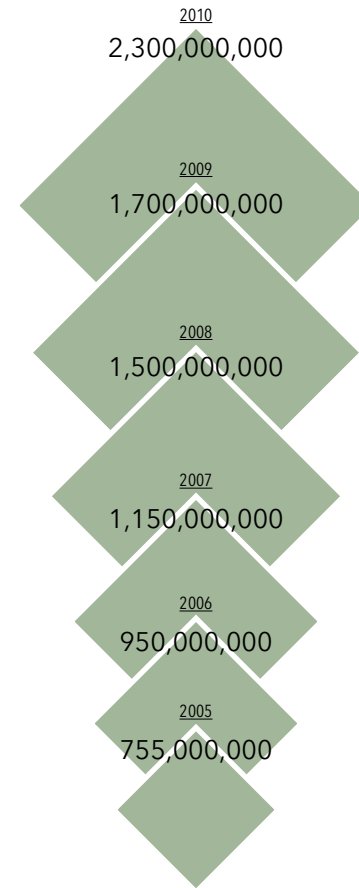

\$2.3 Billion in Loan Servicing

Why Do Business With Us:

It's an honest question. We have a simple answer. Barry Slatt Mortgage offers rates and deals other organizations simply cannot. We make a market for our clients. As a mortgage banker with exclusive relationships with several of the most prestigious lenders in the country, we don't just read you rates from a printed table, we do the heavy-lifting and leg work required to get you the best deal possible that's custom-tailored for your needs.

Want some proof? Our loan portfolio has grown by leaps and bounds over just the past few years, more than tripling in size. Barry Slatt Mortgage now manages over \$2.3 billion in servicing.

We've Tripled in Size over the Past 5 Years

We do the work, you see the results

What We Do:

Barry Slatt Mortgage is a premier commercial mortgage banker. We provide a range of expert services including loan origination and servicing, as well as a suite of professional advisory services.

While most commercial mortgage banking companies have struggled through these difficult times, our business has grown exponentially. Our success was not born from the peril of others, but earned through lasting relationships and expert services.
